County Sheriff Dispatch

Each sheriff's station has a Dispatch channel and a Local Tactical ('L-TAC') channel, each of which may be permanently shared with one or more other stations depending on the volume of station radio activity. Nearly all incidents and communications begin on a Dispatch channel (and then could switch to L-TAC / A-TAC / C-TAC or STAR-TAC).

NOTE: Mobile traffic is not rebroadcasted over the output frequency of the dispatch channels. Instead, only a beeping tone is broadcast to signify to the field units that someone is talking. To monitor units in the field you must program in the input frequencies also. The corresponding L-TAC channel is included in brackets.

Local Tactical (L-TAC)

Local Tactical ('L-TAC') channels are used by units to communicate directly with one or more other unit from the same station without tying up the Dispatch channel. Each L-TAC channel corresponds with (and is secondary to) one or more dispatch channels. County Services Bureau (CSB) Hospital security operations also utilize County's 800Mhz trunked CWIRS and in hospital 800Mhz non-trunked standalone radio systems. See respective listings under Trunked Radio System and Hospital headers in Database below.

Area Tactical (A-TAC)

Area Tactical (or "A-TAC") channels are used to coordinate significant incidents requiring the participation of units from more than one station.

483.08750 KB94197 RM CSQ A-TAC 1 North County Tactical FM Law Tac
 483.16250 KB94197 RM CSQ A-TAC 2 West County Tactical FM Law Tac
 483.01250 KB94197 RM CSQ A-TAC 3 East County Tactical FM Law Tac
 484.11250 KB94197 RM CSQ A-TAC 4 South County Tactical FM Law Tac

Countywide Tactical (C / L-TAC)

Incidents or events that require countywide coordination use a Countywide Tactical (or 'C-TAC') channel. County Service Bureau (OCS) and Parks Bureau (PBK) utilize Countywide L-Tac.

482.81250 WIJ605 RM CSQ CW C-TAC 1 Countywide C-Tac 1 FM Law Tac
 482.83750 WIJ605 RM CSQ CW L-TAC Countywide L-Tac FM Law Tac

STAR Tactical (S-TAC)

The LASD Star Tacs are used for special events, tactical situations & investigations. Most are simply reallocations of the old Investigations (INV) channels. Each S-TAC repeater pair (4, 9, 14 and 19) can be used in repeater mode, simplex on the output frequency with two CTCSS tones or simplex on the input frequency with two CTCSS tones. This gives the ability to use the channel as a repeater, or as a four simplex channels for operations in different parts of the county. S-TAC 2 & 3 are repeater operation only.

Mutual Aid

Each of five Mutual Aid channels covers a different part of the county and allows sheriff's units to coordinate with neighboring municipal police departments when one agency is assisting another. Note that LASD will also use "LAPD Access" (in the LAPD section) when providing mutual aid to the city of Los Angeles.

Los Angeles Regional Tactical Communications System (LARTCS)

Mutual Aid Inter-Ops

LARTCS provides direct communication interoperability between Law Enforcement, Fire, EMS, Federal, State and Military agencies at the scene of a major, multi-agency incident. LARTCS has ability to cross-connects different radio channels over various radio frequency bands, throughout Los Angeles and surrounding counties. Besides below listed frequencies LARTCS member agencies can utilize LASD Mutual Aid frequency pairs, 800Mhz 8CALL/8TAC frequencies, 155.475 VLAW31, VHF/UHF CALAW and Marine channel 83A as required.
